

This Christmas will you be sending out the same old gifts to your customers and staff?

health@work

Improving Health in the Workplace

Liverpool **NHS**
Primary Care Trust

Health@Work in partnership with Liverpool PCT are running a campaign to promote sensible drinking and healthy workplaces. As a result we have produced a list of corporate gifts that are being provided by innovative organisations to employees and customers in place of the usual alcohol, chocolates and cakes.

As more organisations are becoming socially conscious and wish to portray themselves as caring employers many are looking to stand out from the crowd with alternative and imaginative gifts.

These include:

Gift vouchers • Memory sticks
Experience days • Theatre tickets
Festive fruit baskets • MP3 Players
Cinema tickets • Pedometers
Zone/Solo travel tickets
Workplace head massage
Postage stamp booklets • Toiletries
Interest free loans for bicycles
the list goes on and on ...

**What would you prefer to receive?
What gift would you remember most?**

If you would like further information on any aspect of the health, work and wellbeing campaign or have further ideas you would like to share regarding alternative gifts please contact Health@Work on
